Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

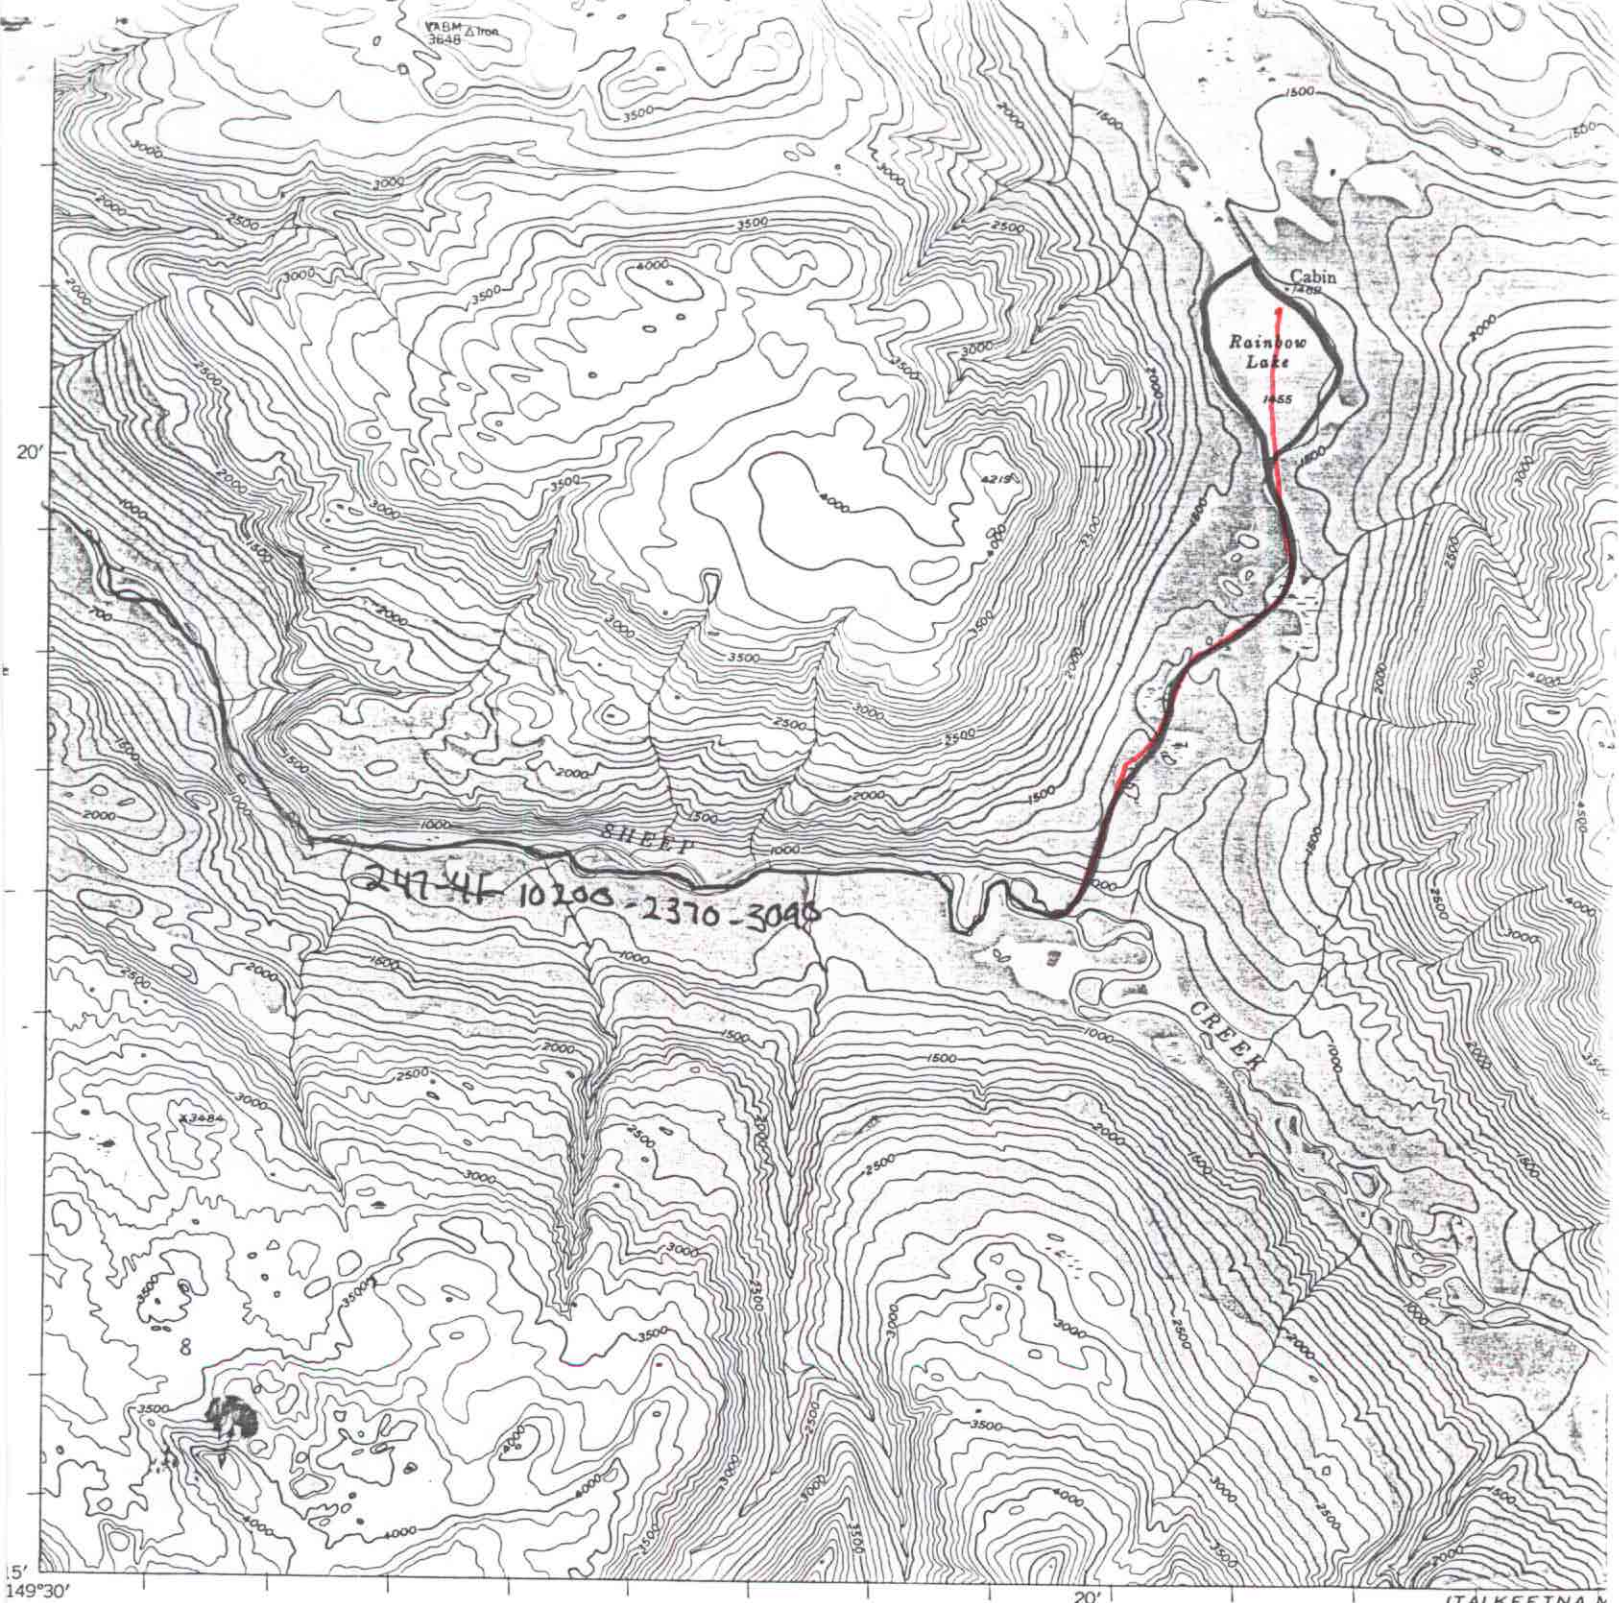

17 silver salmon (102mm-135mm) were captured by gill nets and minnow traps both in Rainbow Lake and up to 100 yds downstream in the outlet stream during a lake survey (also captured 30 rainbow trout and 9 sculpin).

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
